EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the Drawings

The drawings must show every feature of the invention specified in the claims in accordance with 37 CFR 1.83(a). Therefore, the "first slice dispenser" (claim 1, line 3), "second food dispenser" (claim 1, lines 6 & 7), "top food dispenser" (claim 1, line 8) and "second slice dispenser" (claim 1, line 10) must be shown in the drawings. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the

page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

An apparatus for making a sandwich from two slices of bread including a platen designed to receive a first slice of bread, the platen having a sealing surface surrounding a central portion, a first slice dispenser to deposit a first slice of bread on the platen such that only a portion of the first slice of bread lies over the central portion, a first food dispenser to deposit a mass of a base food spread onto the first slice of bread above the central portion of the platen and at least partially spaced inwardly of the sealing surface, a second food dispenser to deposit a mass of an intermediate food spread on the first food spread at least partially inwardly of a peripheral edge of said base food spread, a top food dispenser to deposit a mass of a top food spread over the intermediate food spread to substantially encapsulate the intermediate food spread between the top and base food spreads, and a second slice dispenser to deposit a second slice of bread on the top food spread is not taught nor fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
